***Abstract***

*Participation of Social Community (Kelompok Masyarakat) limited to wrapped unhurt, emotion and physical; so that Social Community doesn't able to serve its own self to develop according to be autonomous.*

*Decentralization is a way to build an effective and democratic government in every level and region. It is can also bring public services closer to the society, develop respect for local society's economic potentials and help to maintain national integrity. On the contrary, centralization will only result in power abuse by the central government, exploitation of local resources, imbalance use of resources, decease of local potentials and plurality, underdevelopment of the local society and even destroy national integrity.*

*Keywords: participation, social community, autonomous*
